FT-SGT-01 Sliding Gate

Ground Tracked Gate Set - Manual or Fully Automatic

The **Fast-Tech® FT-SGT-01** Sliding Gate Set has been meticulously designed to address the most challenging of requirements with the utmost simplicity. Whether required for high security or as a temporary installation, this is the only solution needed.

Supplied as a plug&play unit, the gate set arrives fully assembled and ready to bolt in place; connect it into your new or existing access control network. The finish is class A (hot dip) galvanised and polyester powder coated or shot blast and a marine specification multi-layer epoxy treatment to the RAL colour of your choice to ensure an unrivalled longevity.

Designed in-house, the **Fast-Tech® FT-SGT-01** Sliding Gate Set is expertly fabricated in the UK in our principle Fastline factory to ensure we maintain full control over the quality and to allow us unbeatable service in the production and modification of the standard units if required.

Our ground tracked sliding cantilevered gate set is the ideal high quality, cost effective solution for achieving wide spanning clear openings.

Finish

The unit is hot dip galvanised to BS EN 10346:2015 and polyester powder coated to BS EN 13438:2013. Where leaf lengths exceed that suitable for hot dip galvanising, we utilise a marine suitable shot blast and multi stage epoxy coating system to ensure longevity. The finish colour to your choice with an option for contrasting leaf/ post colours to assist with DDA compliance.

All Fast-Tech® products undergo rigorous multi-stage inspections to ensure conformity to the above standards and contribute to our product guarantee. Our **Fast-Tech® FT-SGT-01** gate set is manufactured in house to exceed all current legislative requirements. When requested, the plug & play module is provided to confirm with guidance as stated in BS EN 12453:2017.

This product can be provided to conform to the above standard please state this at the point of enquiry and our team will be more than happy to advise to ensure full compliance to any specification.

See separate **Terms & Conditions** for F10™ Guarantee compliance.
